Generator Systems, Engines, Pumps, Parts and Service

R. A. Mitchell has offered Deutz Xchange Engines to our customers as replacement engines for many applications.

Deutz Xchange Program (FACTORY STANDARDS)

DEUTZ Xchange engines are totally remanufactured, making them a much more solid alternative than rebuilt engines found in the marketplace today.

Each DEUTZ Xchange engine goes through a Factory 300-point reconditioning process according to its original blueprint specifications.

The reconditioning process is intensive and includes disassembly, cleaning, parts testing, reassembly and a complete inspection - all of which are performed according to uncompromising DEUTZ specifications.

In addition, all DEUTZ Xchange engines are brought up to the latest technical stage of development.

When you purchase a DEUTZ Xchange, all of the following comes standard:

• An industry leading, national three-year limited, fully transferrable warranty (see warranty) on all genuine Xchange engines. • No-Hassle Core Return Policy. • A guarantee that only 100% genuine DEUTZ replacement parts are installed. All wear parts are replaced with DEUTZ original new parts. • Value added final inspection and installation services by members of their trained Distributor service team.

DEUTZ Xchange engines are available for a variety of engine types, spanning the past 45 years:

• 1011/2011 Series
• 912/913/914 Series
• 1012/1013 Series
• 2012/2013 Series
• 1015/2015 Series
• 413/511/513 Series
